“In emergencies people are more likely to respond reliably if they are well trained and competent and take part in regular and realistic practices”  
*Health and Safety Executive*

## Fire Safety Training - Marshal, Warden Staff & Extinguisher Training

### Workplace fire safety training

Every employer should provide clear information, instructions and training to all staff to ensure your premises are safe from fire. This will ensure your staff are prepared in the event of a fire, ensuring their safety and the safety of others.

ClearView can help you meet these obligations by providing a comprehensive range of fire marshal, warden, extinguisher and awareness training courses.

### Fire Marshal & Warden Training

We can provide the correct training – delivered at our training facility or your premises - for anyone nominated to fulfil the role of fire marshal or fire warden.

As well as complying with the Regulatory Reform (Fire Safety) Order 2005, the course provides your staff with the necessary skills and knowledge to protect themselves and their colleagues in the event of a fire. This includes:

- Identifying fires
- Carrying out fire procedures
- Evacuating staff
- Practical fire-fighting, using a fire extinguisher in a controlled setting

### Fire Extinguisher Training

An understanding of how to correctly use a fire extinguisher is essential for all your staff. Our training will give all delegates the necessary skills on how to safely extinguish a fire in accordance with British Standards.

We will also ensure you understand which type of fire extinguisher to use on which type of fire – critical in emergency situations.

**ClearView Communications  
fire safety services & products:**

- Fire alarm & smoke detection
- Fire extinguisher maintenance
- Fire risk assessments
- Fire training

## Fire Safety Awareness Training

As well as fire marshal and warden training, ClearView offer fire awareness training which gives all delegates an understanding of fire safety.

### Training Course Content

- Aims of fire safety
- People's behaviour during fire
- How fire spreads
- Different types of extinguishers
