“ClearView provided an excellent service to us. The CCTV system not only provides a good deterrent against theft and vandalism, it has given us good identification images when incidents have occurred.”

*Terry Cleaver - Maintenance Manager,
Maldon, Essex*

Objective:

The picturesque Essex seaside town of Maldon is a major attraction for visitors, especially in the summer when thousands visit the quaint high street and sea front promenade. Maldon Council needed to address the issues of public safety, vandalism and anti-social behaviour, in an easily-managed and unobtrusive way.

Requirements:

- minimum number of cameras possible
- cameras to blend in with surroundings
- night vision capability
- easy search and access to recorded images
- images to be viewable from anywhere on the Council's network

The ClearView Solution:

ClearView installed a combination of high-performance pan, tilt and zoom cameras, and wide-angle infra-red cameras. These provide excellent coverage at all hours, with the ability to concentrate on trouble spots if required.

Images are recorded onto digital recorders, and live or recorded images can be viewed from workstations across the network.

ClearView designed and manufactured bespoke brackets, to blend in with their surroundings.

If you are interested in a bespoke security system to effectively meet all of your requirements, protected by on-site reactive and preventative maintenance support, please call now on 01245 214104.
