Fire Safety - Fire Extinguisher Maintenance and Servicing

We know that for your business, your priorities lie in keeping your workplace fully functional, safe and efficient. That's why our extinguisher maintenance programme is ideal for you. It will ensure that you have the correct equipment – fully compliant with legislation.

ClearView can maintain and service all types of extinguishers, small or large, including:

- Water
- Dry power
- Foam
- CO2 (Carbon Dioxide)
- Vapourising liquid
- Wet chemical

With a team of BAFE (British Approval for Fire Equipment) registered engineers, we have the experience to create a service built around you and your needs. We will arrange to visit at a convenient time for you and your business.

The benefits of our fire extinguisher maintenance:

- Full compliance, meeting your legal and insurance obligations
- Support from BAFE registered engineers
- Peace of mind knowing your fire extinguishers will always work
- A reliable and cost-effective way of managing your fire equipment
- Scheduled appointments to ensure your equipment is always maintained

All organisations have a legal obligation to install and maintain firefighting equipment to safeguard all those accessing your premises. Engineers are F.E.T.A (Fire Extinguishing Trades Association) qualified and BAFE approved whilst also holding accreditation to SP101 & ST104 schemes for fire extinguisher maintenance.

ClearView Communications fire safety services & products:

- Fire alarm & smoke detection
- Fire extinguisher maintenance
