

The ClearView Difference

When you protect your premises you want the best security equipment available, and you need to have complete confidence in your supplier.

We have over 50 qualified, professional engineers, offering you dependable, reliable advice and service. They have the skills to assist with the design, installation and maintenance of all your security and fire systems. We are one of

the very few security suppliers able to design and build specialist equipment for you from scratch.

Reliable security and fire protection for your staff and business – all day, every day.

engineers

The ClearView Way

At ClearView, our expert teams will advise you on the most appropriate and cost-effective security solutions for your needs. We design, build and install systems that are tailored to your exact requirements, using the most reliable equipment in the industry.

ClearView expertise

We specialise in:

- High quality installation
- Bespoke systems to meet your requirements
- Maintenance to keep your systems in peak condition
- Exceptional after-sales service – 24/7, 365 days a year
- Comprehensive training for you and your staff
- Rapid response

Our unrivalled expertise gives us an in-depth knowledge of physical and electronic security and ensures our after sales maintenance service is second to none.

Size doesn't matter

We have the scale and expertise to deliver the largest projects, whilst ensuring we provide you with expert, personal account management. Our size allows us to deliver your bespoke solution, cost-effectively and on-time.

Outstanding knowledge of your workplace

Your premises are special – no two sites are the same, and each requires a different security solution. We know that your industry may have particular needs, and we already have vast experience with:

- Police
- Local authorities
- Commercial
- Industrial and manufacturing
- Education
- Transport and logistics
- Health

“ ClearView are always willing to go that bit further to be helpful, friendly and efficient. They are all well trained and knowledgeable. ”
Bob Smith, Magdalene College, Cambridge

Your security systems integrated

Delivering effective security in the face of diverse and complex risks can be a challenge. Through an integrated systems approach and custom design, ClearView can protect your critical assets and reduce your costs.

We have a broad range of security and safety technologies to choose from including:

- **CCTV:** IP, megapixel and intelligent cameras
- **Access control:** proximity, biometric, stand alone and networked
- **Gates and barriers:** all your physical security: gates, security barriers and perimeter fencing
- **Automatic Number Plate Recognition (ANPR):** easily log and manage all vehicles on your premises
- **Alarm systems:** intruder and perimeter detection
- **Fire detection:** voice annunciation and public address for faster and safer evacuation
- **Intercoms:** audio, video, IP and GSM
- **Integrated security systems:** easily control all your systems from your tablet, smartphone or PC
- **Service and maintenance:** ensure continuous top performance from all your security systems

Business critical systems

If you need business critical technology, we can provide it. We make bespoke security systems for all police forces in the UK, including cameras and recording systems, which are designed to work first time, every time.

Latest technologies

ClearView's progressive thinking on security technologies allows you to address your security challenges with the very latest innovations.

ClearView was one of the pioneers of IP CCTV and holds 'Partner' status with many leading security manufacturers.

Customised solutions designed by specialists

Following a thorough review, a customised solution is designed to meet all your security needs.

Our professional design engineers, security advisors and project managers work together to deliver high quality installations, on time, and on budget.

“ The system was installed without disruption and has already proved to be an ideal solution to the problems we were encountering. ”

Mike Batchelor, Facilities Manager, The British Library

Maintenance and Support

Keeping your security systems working smoothly and continuously is our number one priority. Having your system regularly maintained not only ensures your peace of mind, but will prolong the life of your equipment.

- 50+ experienced engineers
- Operations centre open 24/7, 365 days a year
- All engineers DBS checked and SC2 level security cleared
- Rapid response
- We maintain all equipment – whoever installed it
- UK, Europe, Africa and the Middle East

As we design and build our own equipment in-house, we have our own production, workshop and test facilities. We are able to repair any security product. Our technicians are proud to deliver repairs in industry-leading turnaround times, ensuring you receive a gold-star service.

ClearView's Pedigree

You can rest assured that ClearView will support you for the long term. The company was founded in 1996 and operates from its own freehold 2,000m² premises.
