

Detect. Intervene. Prevent.

Remotely monitored CCTV that prevents theft and damage, via real-time audio interventions, the moment an intruder steps foot on your premises.

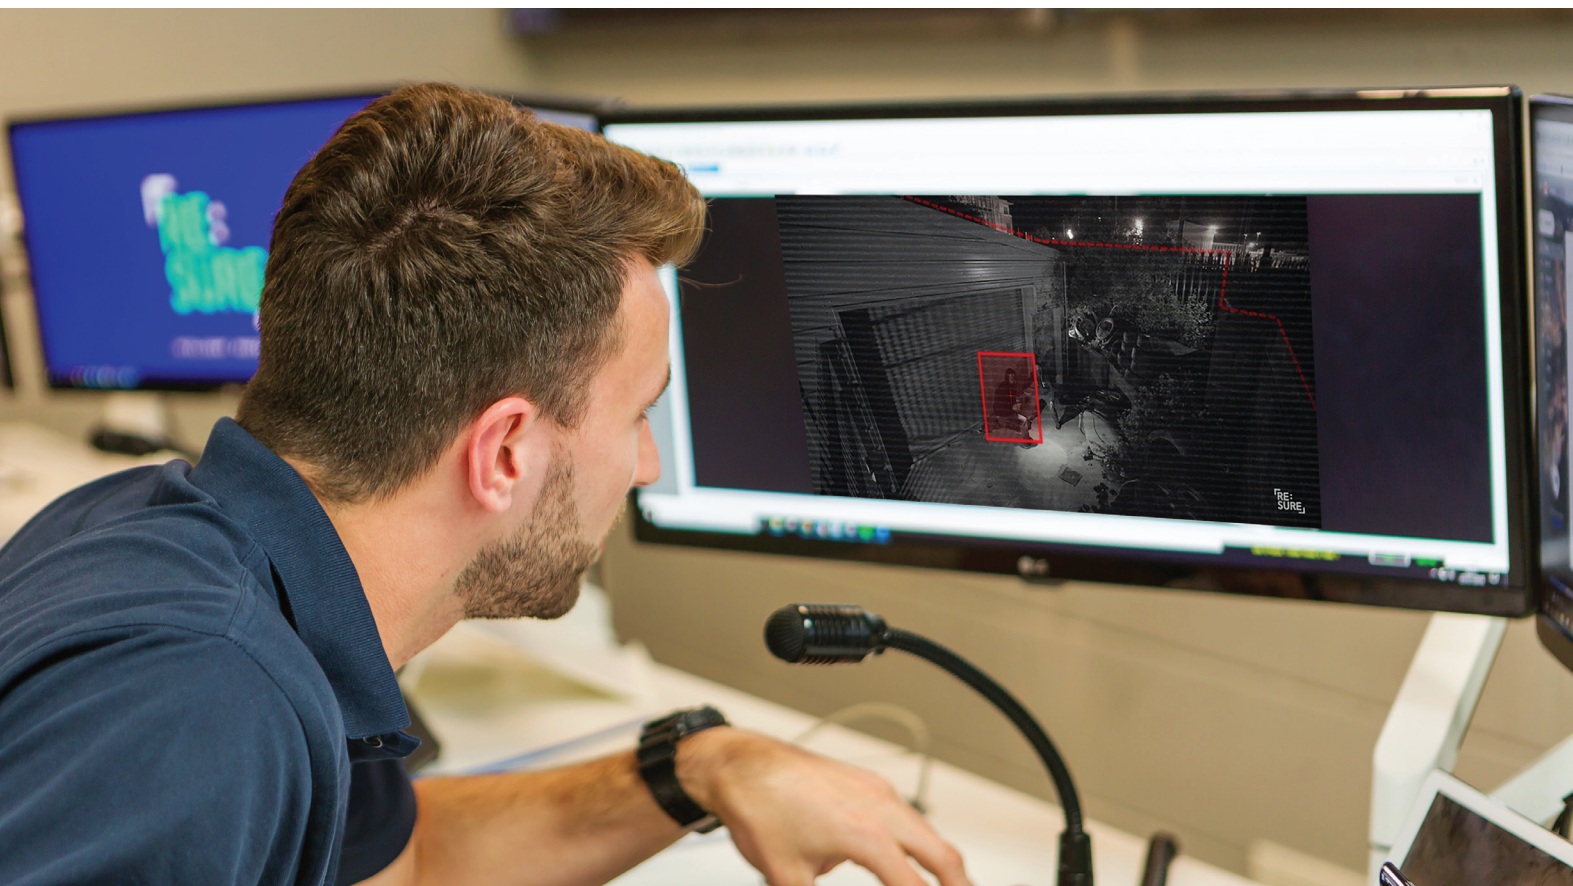

Do you worry about the cost of a break-in to your business?

Do you know who is on your property when there is no-one there?

- + **Monitored CCTV deters damage and theft. Professionals will intervene with immediate live audio challenges the moment an intruder steps foot on the grounds of your property.**
- + **You will always know any time someone unauthorised is on your property when it is closed and that ClearView will react in real-time to reduce theft or damage.**

Don't record crime. PREVENT IT.

There is nothing more frustrating than reviewing footage of a break-in. Having a monitored CCTV system prevents the crime when a real person issues an audio challenge to intruders **BEFORE** they break in.

Prevent crime before it happens

Continual Perimeter Coverage

Intelligent cameras that can detect people or vehicles are always recording your perimeter, and ready to be monitored on demand at any time.

Arm on Demand

Whenever you want your property to be monitored, you arm relevant zones using the app. Disarm when you do not want them monitored.

Immediate Intruder Detection

The moment an intruder steps foot on the grounds of the property, the smart cameras send a video alert to the Control Centre, where the site is viewed in real-time.

Instantaneous Audio Intervention

The window of opportunity is shut by the immediate issuing of a live audio challenge. Any intruders are commanded to leave the property.

Intruder Flees Premises

The intruder flees from site upon hearing the audio challenge, as they know they have been identified and a physical response could arrive at any moment.

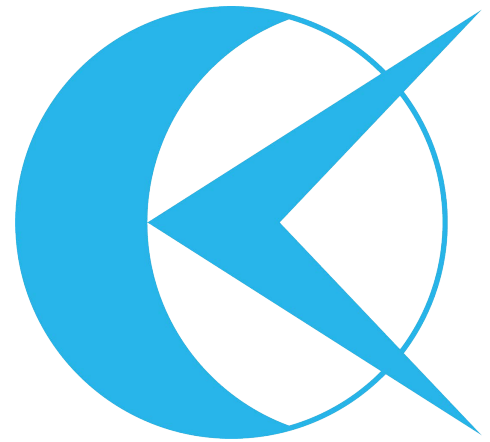

Keyholder & Police Notification

In addition to the audio challenge(s), keyholders & emergency services are also called. A detailed report is emailed to all keyholders.

Arm and Disarm with the CCTV monitoring APP

- Always know the status of your site(s) with scheduled auto-arming and disarming
- Multiple user levels ensure total control of who can do what
- Never have to change a keypad code again with one swipe user removal

And get a host of other benefits too:
